Sirs

POSTAL REGULATORY
COMMISSION
OFFICE OF THE SECRETARY

This Letter is To express our
Concern of The possibility That The
Post office is To be Closed in The
near future. This would have a
devastating effect on our community
for The Person's and business's wishing
To send package's Through The mail
Service. There are many elderly
people in our community and would
have a hardship To have To Travel
To another Town To do Transaction's
in person To talk To someone and
not To a box on a Post somewhere.

It would be great if all our
government would start cutting cost
at The Top instead of looking at The
working and retired for more Tax's

My wife and I Live on Less than
25,000 per year not very high on The
hog but get by
